PRICING GUIDE

2027/2028

HEY! I'M NICOLA

I'm a documentary wedding photographer from lovely Halifax, West Yorkshire, and I take really lovely photos of people just like you having a right good time!

You can usually find me on the sofa, Kindle in hand, with a tasty coffee and something made of cheese!

Give me real, messy, joy-filled moments over some polished, performative version of your wedding any day!

I want you to feel relaxed, free to be yourselves, and able to soak it all in in a way that feels truly you.

I love laughter, I love colour, I love those little in-between moments nobody else sees, and above all, I am a professional people-watcher and will happily immerse myself in your day like a friend!

"Wowee! We knew as soon as we saw your work that we wanted you to capture our day and boy was that the best decision we ever made! The photos are absolutely stunning, funny and full of love, you really have caught the day as we remembered it and so much more. They really are photos we will treasure for ever.

Thank you for your incredible talent, we feel very lucky to have had you there!"

"Nicola is amazing! We're not very good at being in front of a camera and wanted a photographer who would capture our wedding going on around us, we couldn't be happier with the results.

The atmosphere and joy of the day really comes through and we're amazed at how subtle Nicola was whilst capturing the beautiful photos we now have. Tip top, couldn't recommend her enough!"
